

# Node.js - Utility Modules

There are several utility modules available in Node.js module library. These modules are very common and are frequently used while developing any Node based application.

Sr.No.	Module Name & Description
1	<a href="#">OS Module</a> Provides basic operating-system related utility functions.
2	<a href="#">Path Module</a> Provides utilities for handling and transforming file paths.
3	<a href="#">Net Module</a> Provides both servers and clients as streams. Acts as a network wrapper.
4	<a href="#">DNS Module</a> Provides functions to do actual DNS lookup as well as to use underlying operating system name resolution functionalities.
5	<a href="#">Domain Module</a> Provides ways to handle multiple different I/O operations as a single group.
